

PTI Training Seminars

at a glance

The instructors are industry experts that have many years of experience in the fields of packaging, barrier, recycling and aseptic technologies.

We provide current information on various plastic packaging technologies. We also offer total process support, including on-site installation, start-up assistance and manufacturing training which can be used as training platforms.

Most seminars are conducted in small groups which allow interaction, networking, and include both classroom learning and practical application.

Seminars offered

Comprehensive Packaging Technology

- Technology & Application of PET
- Heatset Containers / Hotfill Packaging
- Aseptic Packaging
- Resin Production & Chemical Processing
- Design of Experiment (DOE)
- Advanced Material Drying
- Understanding Recycling
- Barrier Technologies & Applications
- Package Design & Development
- Sensitive Beverages

Comprehensive Operator Training

- Injection Molding Processes
- Blow Molding Systems & Processing
- Hotfill Blow Molding Application

Quality Assurance & Process Monitoring

- Systems, Equipment & Process
- Practical Statistical Process Control

Emerging Technologies

- OPP Containers
- Biopolymers for Packaging
- Food-Grade Recycling & The FDA

Europe Phone: +41 24 423 9530

Schedule your next comprehensive training

Technology and Application of PET

US Seminars

March 22 - 24, 2011

June 21 - 23, 2011

September 20 - 22, 2011

December 6 - 8, 2011

Design of Experiment (DOE)

June 7 - 9, 2011 (Injection Molding)

July 19 - 21, 2011 (Blow Molding)

October 25 - 27, 2011 (Blow Molding)

Europe Seminars:

March 22 - 24, 2011

November 22 - 24, 2011

Sensitive Beverages

September 21 - 22, 2011
(Europe)

Additional plastic packaging services provided by PTI

- Innovation & Technology
- Concept to Commercialization
- Material Applications and Pioneering
- Environmental Packaging Solutions
- Global Analytical Laboratories
- Worldwide Training
- Operational Plant Support
